

## Sefton Council.

### Supported Living Questionnaire.

We want to make Supported Living better in Sefton. We are working with people who use these services, people who may use services in the future and family carers.

We all want to create good support in suitable homes that people need.

Our goal is to improve:

- Choices available.
- Quality Care and Support.
- Wellbeing of everyone.
- Independence.

We will be asking people about their experience of Supported Living between Monday 21st July and Sunday 28th September 2025.
