

We are now evaluating the walking, wheeling and cycling route in Southport (Birkdale to Hesketh Park Via Southport Town Centre)

How we will evaluate the route is set out in the Evaluation Plan. This evaluation plan has been created based on guidance from the Government and the Liverpool City Region.

This plan tells us what information we need to collect to help us to complete the evaluation – this includes feedback from residents, businesses, community, voluntary and faith organisations that are located along the route.

We have written to all the residents, businesses, community, voluntary and faith organisations along the route. This letter invites you to provide your feedback.

We will produce a report, once all the feedback has been collected along with other information and data.

Your feedback will be considered in the report.

Your feedback will be considered by a wide range of Officers and Elected Members.
